

b. PetroCanada Service - Christine and Margret Ann Herd - Business Opportunity

C and MA Herd outlined their proposal for a car wash and requested Council advise whether there is a possibility and sewer capacity to handle the effluent from a car wash. They noted that they wished to have a determination from Council prior to expending funds for plans.

Council responded that the Forrest Avenue sewer line had insufficient capacity currently and that a future feasibility study to determine the priority and requirements for an upgrade would be reviewed at the time of the next budget in late fall or winter of 2019.

Council Enquiries

Council discussed the sink hole/caving-in culvert issue on Wellington Avenue. Council directed a study to be done as a priority task. CAO Cresswell advised that as this issue is classified as flood mitigation, WSP is working on a grant application to move this project forward.

Adjournment

Moved: Councillor Parkinson

That the meeting adjourned at 6:49 pm.

I hereby certify these minutes to be a true and correct account of the Committee of the Whole meeting of Council held on July 17th, 2019.
