## Recommended Zoning Bylaw Changes

### Active Transportation

There is a desire among community members to improve the walkability of Warfield through active transportation connections (i.e., pathways and trails). The updated ZB introduces requirements for new multi-unit residential buildings and commercial or institutional developments to provide on-site pedestrian walkways and bicycle parking. The on-site pedestrian network must maximize connections between roads and open spaces and minimize pedestrian and vehicle conflicts. In addition, the updated ZB identifies that trails shall be included in plans for future development in Emerald Ridge. For specific details, please see Section 4.25 and Section 3.4 of the Draft Zoning Bylaw.

Strongly disagree	4.76%	1
<b>TOTAL</b>		<b>21</b>

## Parking

Community members shared that any new land use which increases density and/or brings additional visitors to an area should not contribute to on-street parking challenges. The updated ZB will ensure that new development, home based businesses, and short-term rentals (Bed and Breakfasts) will have sufficient parking requirements. For specific details, please see Section 4.10 of the Draft Zoning Bylaw.

### Accessory Suites and Secondary Suites

Overall, community members shared their support for a greater variety in housing typology (i.e., accessory suites, secondary suites, and multi-unit residential dwellings). The updated ZB will permit context sensitive secondary suites and accessory suites. To ensure that the development of secondary suites and accessory suites is done in a manner that is sensitive to existing neighbouring land uses, the ZB will regulate the size of the suite and parking requirements. For specific details, please see Section 5.6 and 5.7 and Table 5-1 of the Draft Zoning Bylaw.

<b>TOTAL</b>		<b>21</b>

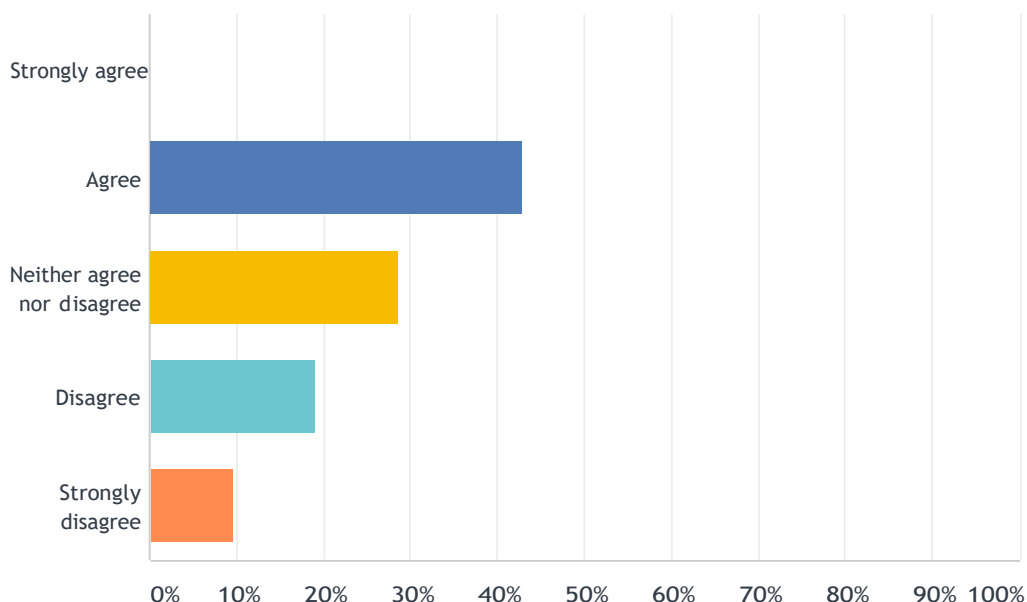

### Bed and Breakfast Homes (Short Term Rentals)

Bed and Breakfast Homes provide temporary lodging for tourists and visitors where guest rooms are rented out for a total period of less than one month. Bed and Breakfast Homes are currently permitted in Warfield and must meet specific requirements, including minimum off-street parking requirements. The updated ZB will introduce requirements for Bed and Breakfast Homes to be licensed by the Village of Warfield and that the owner of the Bed and Breakfast Home must occupy the dwelling. In addition, the dwelling unit must be rezoned to permit the use of a Bed and Breakfast Home. For specific details, please see Section 5.8 and Table 5-1 of the Draft Zoning Bylaw.

## Multi-Unit Residential Development

Community members shared that new multi-unit residential development should be encouraged to maintain the existing character of Warfield. The updated ZB will introduce development guidelines for multi-unit residential developments (i.e., housing that contains three or more dwelling units). Development guidelines related to visual appearance, streetscape presence, and landscaping are included in the recommendations. For specific details, please see Section 7.5 and Table 5-1 of the Draft Zoning Bylaw.

### Residential Infill Development

Community feedback indicated general support for increasing residential density. However, feedback also shared the challenges of developing multi-unit residential development in Warfield due to lot sizes and dimensional requirements. The updated ZB is introducing a new zone to better accommodate infill development. The Residential Infill Housing (RIH) Zone will provide opportunities to introduce infill development into existing neighbourhoods in a manageable way. Landowners must apply to have a property re-zoned RIH. Approval will be largely based on the capacity of existing infrastructure (i.e., sewer, water and drainage) to handle additional development. For specific details, please see Table 6-1 of the Draft Zoning Bylaw.

### Development of Emerald Ridge

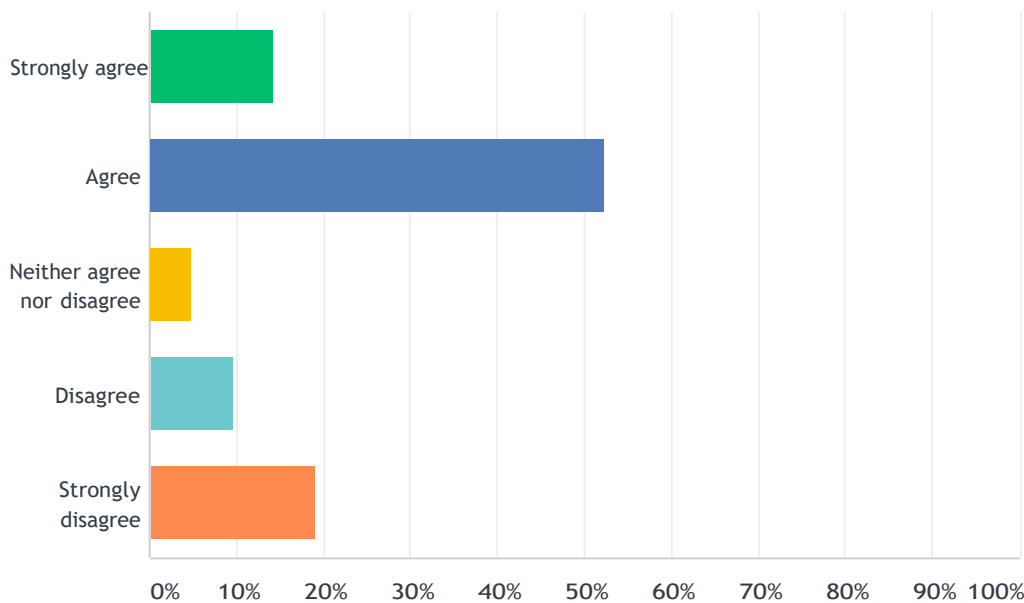

Community members shared a desire for a comprehensive approach to developing the Emerald Ridge neighbourhood. The updated ZB identifies that a comprehensive development plan for all undeveloped portions of Emerald Ridge will be required prior to any further development. The comprehensive development plan shall:

- Identify land uses, trails, and amenities for existing undeveloped sites;
- Include an acceptable servicing strategy; and
- Support the policies and objectives of Warfield’s Official Community Plan.

Existing undeveloped lands in Emerald Ridge cannot be rezoned or subdivided until an approved comprehensive development plan is in place. For specific details, please see Section 3the Draft Zoning Bylaw.

## Commercial Development

Community feedback indicated a desire for future commercial development to maintain the current character of Warfield. The updated ZB introduces Development Permit Area guidelines which will assist in ensuring that new development in the Annable and Commercial Core areas is compatible with surrounding uses. Development guidelines related to visual appearance, streetscape presence, landscaping, and safety and security are included in the recommendations. For specific details, please see Section 7.3 and 7.4 of the Draft Zoning Bylaw.

### Protection of the Natural Environment and Protection of Development from Hazardous Conditions

The updated ZB is recommending DPA guidelines to help protect the natural environment and to protect future development from hazardous conditions. The objectives of the DPA guidelines are to minimize the risk to people and property from wildfire hazards, overland flooding hazards, and slope hazard. For specific details, please see Section 7.6, 7.7, and 7.8 of the Draft Zoning Bylaw.

### Usability of the ZB

The updated ZB has been reformatted to improve the usability of the document. The list of definitions has been updated, additional diagrams are included, and tables have been added to more clearly identify parking requirements for different land uses, and the principal uses and dimensional standards for each zone.

Do you agree or disagree with the above reformatting changes?
